# Agenda

- The challenge of Human Connection in E-Commerce
- How Salesforce Bridges the Gap
- Real-World Examples

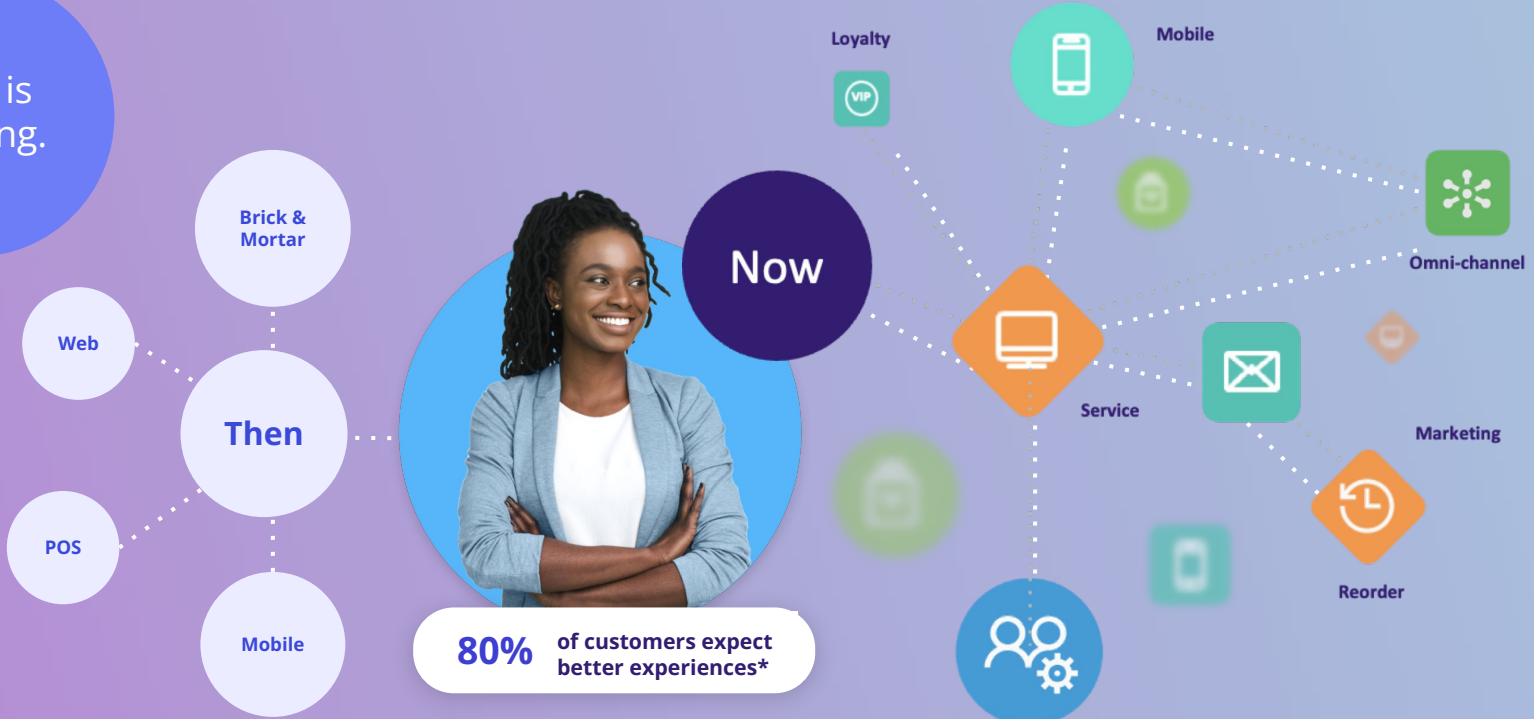

# **The Challenge of Creating Human Connections Online**

# Rising Customer Expectations

Data is  
surging.

Channels are  
proliferating.

# The Challenge of Connections Online

## Customers Expect More

Customers are looking for more than just convenience, they crave emotional, personalized, interactions

## Data Overload

Businesses are overwhelmed with data – but still struggle to create meaningful relationships through it

# How Salesforce Bridges the Gap

# Leveraging Connected Data for Personalized Experiences

## Unified Customer Profile

Salesforce consolidates customer behavior, preferences, and history for a 360-degree view.

## Cross Channel Personalization

From mobile to in-store, connected data ensures seamless and personalized interactions.

# AI Driven Personalization at Scale

## AI For Large-Scale Personalization

Salesforce AI tools allow personalized recommendations for thousands of customers.

## Real-Time Insights

AI enables real-time recommendations based on customer behavior.

# Connecting the Journey Drives Revenue

# The Real World

# Coke – A Case Study

## Unified Data

Consolidated data from vending machines, mobile apps, and loyalty programs from it's global customer base and operations.

## Personalized, Real-Time Offers

Using SF 360-degree view, Coke delivered highly personalized experiences across all channels (omnichannel).

## **Results:** 30% Productivity Boost

This resulted in a 30% increase in productivity and they also experienced improved customer engagement.

# Connected Data Is The Future

## Unified Customer Profiles

DataCloud helps to unify all interactions and provide a 360-degree of each customer.

## Real-time Data Activation

Activate customer data instantly to trigger personalized offers and recommendations.

## Personalization At Scale

AI enables businesses to predict customer needs & deliver personalized experiences to all.

## Omnichannel Consistency

Deliver a seamless, and connected customer experience across all channels, at all times.

# Summary

Connected Data is Essential

AI-Driven Personalization at Scale

Omnichannel Consistency Drives Loyalty
